Revision surgery for failed unicompartmental knee
May 4th, 2019 - Revision surgery for failed unicompartmental knee replacement is not a surgical option. Occasionally MRI studies of the knee and even diagnostic arthroscopy to directly visualize the interior of the knee may be necessary to determine if a patient is a candidate for unicompartmental replacement.

Unicompartmental knee replacement – Current perspectives
May 15th, 2019 - Several studies have confirmed the excellent clinical outcome and survival of unicompartmental knee replacement fixed or mobile bearing implants with a reported ten year survival greater than 90%. In a prospective series of 1000 cases, Pandit et al reported a ten year survival of 96% for the Oxford Phase 3 Unicompartmental Knee.

Unicompartmental knee arthroplasty Wikipedia
May 14th, 2019 - Unicompartmental knee arthroplasty UKA is a surgical procedure used to relieve arthritis in one of the knee compartments in which the damaged parts of the knee are replaced. UKA surgery may reduce post operative pain and have a shorter recovery period than a total knee replacement procedure particularly in people over 75 years of age.
Depending on how much of your knee is affected by arthritis, surgeons can sometimes perform a partial knee replacement, also known as a unicompartmental knee replacement (UKR) as opposed to a total knee replacement (TKR). In most cases:

**Outcomes and early revision rate after medial**

May 3rd, 2019 - The Oxford unicompartmental knee arthroplasty (UKA) Biomet Warsaw Indiana is a well-established implant and reports from the designer centre demonstrate good results for the medial UKA out into the second decade and into the midterm for its lateral counterpart. Whilst the initial indications were relatively narrow, increased experience has led to an expansion of potential inclusion.

**Oxford Partial Knee Zimmer Biomet**

**Lateral unicompartmental arthroplasty with the Oxford**

May 13th, 2019 - Background. The rate of bearing dislocation with the domed lateral Oxford Unicompartmental Knee Replacement (OKR) in different series varies from 1 to 6, suggesting that dislocation is influenced.

**Oxford® Unicompartmental Knee UK HealthCare**

May 7th, 2019 - Oxford Partial Knee Replacement. The Oxford Uni Knee implant is designed to restore function and reduce pain for patients with osteoarthritis on the inside part of the knee. The implant features a polyethylene plastic bearing that is designed to glide freely throughout the knee’s range of motion more closely replicating normal movement.

**Medial unicompartmental knee arthroplasty in the ACL**

March 15th, 2012 - Treatment options in either of these patient groups include arthroscopic debridement, reconstruction of the ACL, high tibial osteotomy (HTO) with or without ACL reconstruction, unicompartmental knee arthroplasty (UKA) and total knee arthroplasty (TKA). General opinion is that a functionally intact ACL is a fundamental prerequisite to perform a UKA.

**Medial Unicompartmental Knee Replacement Clinical Gate**
May 1st, 2019 - Cementless fixation in unicompartmental knee replacement UKR is a developing field with advances in implant design and fixation surfaces. Although cementless options in unicompartmental replacement have been available for nearly 20 years, the operation has not become widespread.

**The Oxford Unicompartmental Knee Fails at a High Rate in a**
October 11th, 2016 - The Oxford unicompartmental knee replacement uses a fully congruent mobile bearing designed to minimize wear and increase implant longevity. This implant has achieved worldwide use and currently is the most commonly implanted UKA design. Since its introduction, reported results with the Oxford unicompartmental knee have been mixed.

**The Oxford Unicompartmental Knee Fails at a High Rate in a**
May 13th, 2019 - Questions purposes. In the setting of a high volume knee arthroplasty practice, we sought to determine 1 the failure rate of the Oxford unicompartmental knee implant using a failure definition for aseptic loosening that combined clinical features, plain radiographs, and scintigraphy and 2 whether increased experience with this implant would decrease failure rate if there is a learning curve.

**Unicompartmental Knee Replacement OrthoInfo AAOS**
May 13th, 2019 - In unicompartmental knee replacement, also called partial knee replacement, only a portion of the knee is resurfaced with metal and plastic components. This procedure is an alternative to total knee replacement for patients whose disease is limited to just one area of the knee.

**Oxford Unicompartmental Knee Manual of the Surgical Technique**
May 14th, 2019 - Arthroplasty using the Oxford Knee Phase 2 is given in the paper by Gunther et al. It is recommended that the fixed bearing Vanguard M unicompartmental replacement be used instead. The final decision whether or not to perform unicompartmental arthroplasty is made when the knee has been opened and directly inspected.

**Medial Unicompartmental Knee Replacement Musculoskeletal Key**
May 3rd, 2019 - Chapter 12 Medial Unicompartmental Knee Replacement Cementless Options. Benjamin Kendrick, Nicholas Bottomley, Hemant Pandit, Andrew Price, Christopher Dodd, David Murray. Key Points: Cementless fixation in unicompartmental knee replacement has the theoretical potential of very long term biologic fixation. The indications for cementless UKR are identical to those in cemented UKR.

**Oxford ® Partial Knee**
May 15th, 2019 - With over 40 years of clinical heritage the Oxford ® Partial Knee is the most widely used 1 and clinically proven 2 3 partial knee system in the world The Oxford Partial knee comes with the only lifetime knee implant replacement warranty † in the US It s your assurance that Zimmer Biomet not only makes a proven partial knee but we stand behind it 100

Unicompartmental versus total knee arthroplasty for knee

Early recovery after fast track Oxford unicompartmental
May 6th, 2019 - Unicompartmental knee arthroplasty UKA operated with mini mally invasive surgery MIS results in less operative trauma We investigated changes in leg extension power LEP in the first month after MIS Oxford UKA and its relation to pain knee motion functional performance and knee function
